Under penalty of perjury that I am licensed under provisions commencing with Section 7000) of Division 3 of the Business Code, and my license is in full force and effect.

Lic. No. \_\_\_\_\_

Signature \_\_\_\_\_ Date \_\_\_\_\_

under penalty of perjury that I am exempt from the  
 use Law for the following reason (Sec. 7031.5, Business  
 Code: Any city or county which requires a permit to  
 improve, demolish, or repair any structure, prior to its  
 requires the applicant for such permit to file a signed  
 e or she is licensed pursuant to the provisions of the  
 use Law (Chapter 9 (commencing with Section 7000) of  
 Business and Professions Code) or that he or she is  
 n and the basis for the alleged exemption. Any violation  
 s by any applicant for a permit subjects the applicant to a  
 ot more than five hundred dollars (\$500).):

under Sec. \_\_\_\_\_, B.& P.C. for this reason:

to the property, will do the work, and the structure is not sold for sale (Sec. 7044, Business and Professions Code). The license Law does not apply to an owner of property who does the work, and who does such work himself or herself, or whose improvements are not intended or offered for sale. If the improvements are sold within one year of completion, the owner will have the burden of proving that he or she did not do the work (or the purpose of sale.).

the property, or my employees with wages as their sole means of doing the work, and the structure is not intended or offered for sale.

44. Business and Professions Code: The Contractors' Code provisions do not apply to an owner of property who builds or improves the property. Does such work himself or herself or through his or her agent, and provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that the building or improvement was not intended or offered for sale.

I, the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who does not contract thereon, and who contracts for such projects with licensed contractors pursuant to the Contractors License Law).

BEST MANAGEMENT PRACTICES FOR CONSTRUCTION ACTIVITIES\*

Storm Water Pollution Control Requirements for Construction Activities  
Minimum Water Quality Protection Requirements for All Development Construction  
Projects/Certification Statement

*The following is intended minimum notes or as an attachment for construction and grading plans and represent the minimum standards of good housekeeping which must be implemented on all construction sites regardless of size. (Applies to all permits)*

- Eroded sediments and other pollutants must be retained on site and may not be transported from the site via sheetflow, swales, area drains, natural drainage courses or wind.
- Stockpiles of earth and other construction related materials must be protected from being transported from the site by the forces of wind or water.
- Fuels, oils, solvents and other toxic materials must be stored in accordance with their listing and are not to contaminate the soil and surface waters. All approved storage containers are to be protected from the weather. Spills must be cleaned up immediately and disposed of in a proper manner. Spills may not be washed into the drainage system.
- Non-storm water runoff from equipment and vehicle washing and any other activity shall be contained at the project site.
- Excess or waste concrete may not be washed into the public way or any other drainage system. Provisions shall be made to retain concrete wastes on site until they can be disposed of as solid waste.
- Trash and construction related solid wastes must be deposited into a covered receptacle to prevent contamination of rainwater and dispersal by wind.
- Sediments and other materials may not be tracked from the site by vehicle traffic. The construction entrance roadways must be stabilized so as to inhibit sediments from being deposited into the public way. Accidental depositions must be swept up immediately and may not be washed down by rain or other means.
- Any slopes with disturbed soils or denuded of vegetation must be stabilized so as to inhibit erosion by wind and water.

☐ Other: \_\_\_\_\_

As the project owner or authorized agent of the owner, I have read and understand the requirements listed above, necessary to control storm water pollution from sediments, erosion, and construction materials, and I certify that I will comply with these requirements.
